

ZSB Series Label Printer

Quick Start Guide

End the Plug 'n' Pray

Meet the label printer that just... works.

The ZSB Series Label Printer helps you focus on the details of your craft and forget about fussing with your printer.

Setup Your Printer

Step 1: Power On the Printer

The Printer will automatically print a label with a QR code when you first turn it on.

Step 2: Get the ZSB Series App

Scan the QR code with the camera on your mobile device and Download the app.

Step 3: Follow the Guided Setup

The Android or iOS app will have you printing labels in no time!

Step 4: Download the ZSB Series Driver

Login to zsbseries.com/workspace and download the driver on your PC or MAC.

Get the ZSB Series App

Scan the QR code with the camera on your Android or iOS device and download the app.

Or, download the [ZSB Series App](#)

zsbseries.com/setup

Manage all your labeling activities from your Windows PC or Mac

- Design and print many types of labels
- Create using your images, data, and contacts
- Check and monitor label usage

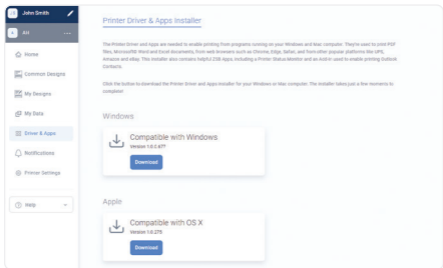

After setting up the printer on your mobile device, feel free to sign into [your ZSB Series Workspace](https://zbsseries.com/workspace).

Printing Labels from Third-Party Apps

Print from desktop apps such as Microsoft Word, or from online platforms like Amazon, eBay, and UPS.

PC or Mac: Download the ZSB driver and follow the on-screen instructions to install.

Mobile PDF Printing lets you print PDFs from your preferred shipper or e-commerce app on your mobile device.

iOS: From your PDF ▶ select **Share** (📎) ▶ then choose the **ZSB Series App** (📄)

Android: From your PDF ▶ open the **Android menu** (⋮) ▶ select **Send...** or **Share...** ▶ then choose the **ZSB Series App** (📄)

Get your time back
with virtually unjammable cartridges

It's almost impossible to load ZSB Label Cartridges incorrectly. Simply drop them in, and they set into the right position. Every time.

Replacing Label Cartridges

1

Open the Cover

Press the Release Bar down and lift the Cover to open.

2

Remove the Cartridge

Lift the empty cartridge from the sides, remove the smart chip, and recycle.

3

Drop in the New Cartridge

Once loaded, pull the first label out to the Label Tear Edge and you're ready to print.
